West Virginia SERC:
CAMEO® for Planning

**The WV SERC is inviting you to take a WV–specific *CAMEO® for Planning* Class!
Read on to find out more and register!**

Understand the hazardous material threat in your jurisdiction. Experienced instructors will train you how to use the CAMEO® Suite of software* to facilitate planning for hazardous material and other types of emergency incidents.

This month-long class includes:

Online Classroom with 24/7 access to weekly lessons, videos & activities; and

Weekly, scheduled live Q&A webinars.

1-hour Zoom call on the 1st day of class.

Four, 2-hour webinars on the remaining 4 days.

West Virginia CAMEO ® for Planning 2024:

March 21, 11-12 ET – Intro, Logistics & Setup

March 28, 11-1 pm ET – Lessons 1 & 2

April 4, 11-1 pm ET – Lessons 3 & 4

April 11, 11-1 pm ET – Lesson 5

April 18, 11-1 pm ET – Lessons 6, 7 & Wrap-Up

Target Audience: This course is particularly helpful for Tier II managers, local emergency planners, fire service, and all support personnel. It is also an excellent introduction to using the CAMEO® programs for planning for all types of emergency events, e.g. fire, floods, severe weather. This is a targeted course focusing on planning, not a general introduction to the CAMEO® Suite.

Class size is limited to 25 WV students. Please register with the link below.

We'll focus on these important CAMEO® skills:

- Importing EPCRA Tier II data into CAMEO DM
- Utilizing CAMEO DM to create a customized Facility planning document
- Exploring CAMEO Chemicals and its connection to CAMEO DM
- Separating Tier II Facilities into groups (e.g., RMP, EHS and non-EHS) and Mapping in MARPLOT®
- Importing critical infrastructure mapping layers into MARPLOT®, such as hazmat transportation routes
- Creating 'hazard zones' around facilities
- Evaluating potentially affected populations and infrastructure in hazard zones
- Exporting information to a spreadsheet, map, and document
- Adding attachments to a CAMEO DM Facility record
- Maintaining and sharing information
