		LOCATION OF VACANCY	STATEWIDE

Nature of Work

Posting EMD2500016
Position 0606P00061
1 Vacancy
Statewide

EXEMPT POSITION

This work involves the full span of technical duties in the programming, implementation, operation, repair and maintenance of the Statewide Interoperable Radio Network, and IP/TDM, UHF digital P25 trunked statewide radio network for the use of municipal, county, state and federal public safety agencies and organizations. This is technical work at the full-performance level on the full range of UHF digital P25 trunked statewide radio and IP/TDM microwave radio network operational issues. Analyzes and resolves issues relating to connectivity between agencies, multiple locations and multiple platforms. Effectively identifies and resolves network technical issues emanating from the SIRN network environment and user community. Analyzes and repairs various telecommunications equipment such as network switches, servers, routers, dispatch consoles, network alarm systems, communication tower lighting, base stations, microwave radios, backup systems and repeater network sites. Programs radio networks client subscribers, microwave client circuits and radio frequency antenna combiners. May deal with network operations issues or situations of unusual difficulty where time and resource loss are critical and network recovery is of primary importance. Assists in testing, evaluation and installation of new hardware and software upgrades.

Minimum Qualifications

Training: Successful completion of twelve semester hours of computer science from an accredited college or university.

OR

Successful completion of an information technology, networking, electronics, computer science, computer programming or

data processing program of at least 1080 clock hours from a secondary vocational or technical school, commercial college or school of comparable level.

OR

Successful completion of industry recognized authorized/certified personal computer or server support, LAN administration, network service/support and/or network.
