

DEMYSTIFYING CYBER ATTACKS

AWR-421

This course provides non-technical students a better understanding of various cyber-attacks and how they occur. Cyber-attacks will be demonstrated through discussion, videos, pre-recorded attacks, and live example attacks. Students will be introduced to the Cyber Kill Chain and the common process cyber criminals use when conducting cyber-attacks. Through a better understanding of the Cyber Kill Chain, students will learn how to mitigate, disrupt, and stop cyber-attacks.

Topics

- Terminology
- Threat Actors
- Cybersecurity Kill Chain
- How Threat Actors Use Attack Vectors
- Attack Vectors
- Thinking Like a Hacker
- Internet of Things (IoT)
- Cyber Hygiene
- Communication
- Cyber Awareness
