FAYETTE COUNTY POP-UP SITES CHANGING - NEW SITES ADDED, ONE CLOSING

CHARLESTON, W.Va. — As recovery continues following storms in August, West Virginia Emergency Management Division (WVEMD), alongside the Federal Emergency Management Agency (FEMA), the Small Business Administration (SBA) and Fayette County officials are happy to announce the opening of two new Community Outreach Centers in Fayette County this week.

A Federal Major Disaster Declaration was announced on October 8, 2026 that included Fayette, Harrison, and Kanawha counties. Individuals and families residing in the declared counties that sustained damages or other disaster related costs from August 14th to August 18th are eligible to apply for Individual Assistance (IA) following the declaration.

Community Outreach Centers are sites that are temporarily established in declared counties, in local communities, for residents to visit, speak with FEMA staff in-person, register on-site, and receive additional assistance and information regarding the disaster relief process. Fayette County residents can expect to see pop-ups throughout the county in the coming weeks.
